

*Laura Amy Krivoshik  
Our Special Angel*

*September 12, 1993 - April 17, 2010*

On Easter Sunday April 4<sup>th</sup> Laura didn't want to watch her favorite movies and came down to the kitchen, wanting to help with the food and asked "can I set the table". On April 14<sup>th</sup> after school Laura wanted to go for a walk with me & her Pug Skip, something she hasn't done in years, go for a walk. On the way back to the house she stopped, picked flowers for me & for Cindy and told me she loved me & loved mommy. Very early Saturday morning in the dark between 2:30 & 3:30 AM Laura tried to get up into our attic 4 times, something she hasn't done in over 8 years when she used to use a

computer up there. We both believe Laura knew & was trying to get closer to heaven.

I checked on her at 4:30 ~ 5:00 AM, she was sleeping & was fine. When I went to wake her Saturday morning a little after 8 AM she had a small amount of blood on her face and apparently had a seizure earlier. She was non responsive (which was typical for Laura after a seizure). I called Cindy who was attending the Relay For Life at Bridgewater Virginia & told her, but suddenly I had a bad feeling, hung up & ran to Laura's room. Laura was not breathing. I called 911 & started to perform CPR by myself. The MICU arrived in minutes along with the rescue squad & the State Police. I watched most of the time as they performed CPR on my baby for over 35 minutes.

In her comfortable bedroom at 9:32 AM on Saturday April 17<sup>th</sup>, 2010 Laura received her angel wings ...

In our yard we building a memorial prayer & butterfly garden for Laura.

Please always keep Laura in your thoughts and prayers.
